Fall 2017

Dear Friends:

Gramatan Village is not a physical place. It is a way of life.

We support **aging-in-community** with a network of volunteers, community partners and peer connections that enable our older neighbors to live independently and remain engaged in the community they love. **Gramatan Village** serves four neighboring zip codes and offers subsidized memberships if needed.

Our compassionate staff is skilled at locating and evaluating the best local resources, and our community partners are professional organizations that support our goals. Our social and cultural programs are a source of engagement and great delight for our members. Our volunteers lend a helping hand and are the core of the Gramatan Village mission.

Here's what our members, caregivers and volunteers say about Gramatan Village:

"Gramatan Village has changed my life! I don't consider myself needy, but I like the fact that GV is only a phone call away should the need arise." **Richard, GV Member**

"I live far away and caring for my elderly parents is a challenge. Gramatan Village provides the support they need to live independently." **Chris, Son of GV Members**

"I love volunteering at Gramatan Village because it is so satisfying to watch our older neighbors engage with others, making their life more enjoyable." **Sue, GV Volunteer**

Gramatan Village is a support system providing peace of mind and social connections. We invite you to share our vision by making a financial contribution today. Your support plays a critical role in our ability to provide high-quality programs and services. Every contribution makes a difference in someone's life.

With our sincere thanks,

Kerry Walsh
President
